CARE & CLEANING INSTRUCTIONS – VERY IMPORTANT!!

Acrylic 'glass' is easy to care for and easy to clean. If not done properly you can damage the finish. By following these simple instructions your new acrylic display case will provide you with years of enjoyment.

Step 1) Use WATER and a NON-ABRASIVE/NON-CONTAMINATING CLOTH

Step 2) Using the water moistened cloth, gently wipe the surface taking care not to rub the dirt into the surface – instead wipe the dirt from the surface.

For faint surface scratches, use a buffing compound such as car wax. Using the buffer provided with the car wax, lightly buff the sheet until scratches disappear.

DO NOT USE: ketones, aromatics, esters, halogens, window cleaning sprays, alcohol, kitchen scouring compounds, or solvents (such as acetone, benzene, gasoline, carbon tetrachloride, or thinners). Do not use ammonia based cleaning solutions on the acrylic as it will eat into the sheet and cause it to 'craze' damaging it beyond repair. Hand sanitizer applied directly to the surface will cause this 'crazing' affect.

We offer a 30-day guarantee against factory defects.

HOW TO HANG YOUR RIBBON SUSPENDED MEDAL

Remove the lid and place it on a non-abrasive surface, wrap the ribbon, cross the ribbon, and wrap it again! Then replace the lid on the case with the medal facing the direction you want. Wrap it, cross it, and wrap it again – it's that simple! Here are some photos to help you get it just perfect:
